TECHNICAL DATA SHEET

ASBP1 Anti-static Bubble Film Pouches

Product description	
Product data	
~ pouch width	
~ pouch depth	
Technical data	
~ static decay	
~ static resistivity	

Pink bubble film in pouch format, used to dissipate electrostatic charges generated during handling and packaging, making it an ideal material for sensitive electronic components

100mm 135mm

< 1 second (BS 2782: part 2 method 250A) - very good better than 10¹² ohms (BS 2782: part 2 method 231A)
