TECHNICAL DATA SHEET

ASBP3 Anti-static Bubble Film Pouches

Product description
Product data
~ pouch width
~ pouch depth
Technical data
~ static decay
~ static resistivity
3

Pink bubble film in pouch format, used to dissipate electrostatic charges generated during handling and packaging, making it an ideal material for sensitive electronic components

180mm 235mm

< 1 second (BS 2782: part 2 method 250A) - very good better than 10¹² ohms (BS 2782: part 2 method 231A)
