## TECHNICAL DATA SHEET

## **ASBP5** Anti-static Bubble Film Pouches

Product description
Product data
~ pouch width
~ pouch depth
•
Technical data
~ static decay
~ static resistivity
Static resistivity

Pink bubble film in pouch format, used to dissipate electrostatic charges generated during handling and packaging, making it an ideal material for sensitive electronic components

280mm 360mm

< 1 second (BS 2782: part 2 method 250A) - very good better than 10<sup>12</sup> ohms (BS 2782: part 2 method 231A)
