BP755

Electronic Water Activated Tape Dispenser

The BP755 is a water-activated tape dispenser is made for a fast-paced packaging environment where random-sized heavy items are being shipped. This dispenser has a smooth-touch, easy to use colour-coded keypad with 20 preset tape lengths.

The BP755 is UL Listed and Approved by the independent safety certification company, Underwriters Laboratory. It is also built to meet or exceed safety standards set by CE.

Colour-coded keypad with 20 pre-set tape lengths
Offers fast, simple and accurate tape dispensing.

Applications

- > High volume, fast-paced shipping
- > Random key allows for continuous, uninterrupted carton packing of heavy and bulky items
- > Limited workspace height (dispenser has a low profile)
- > Cartons being packed and sealed that require 100mm wide tape
- > Side access cover provides easy tape loading access
- > Heavy gauge steel frame construction and few moving parts means minimal maintenance
