

BXT3

FRICITION WELD BATTERY
POWERED STRAPPING TOOL

The BXT next generation battery powered strapping tool for 13-16mm PP and PET strapping has a number of revolutionary world firsts in manual strapping tools.

BXT3

FRICTION WELD BATTERY POWERED STRAPPING TOOL

The BXT3 is designed to withstand the everyday rigours of industrial use over many years.

Touch-screen digital control

The BXT3 features high quality materials and ergonomic design throughout its construction

World-first features:

- > **High productivity** – favourite cycle settings can be stored for repeatability
- > **Precise tensioning** – actual strap tension shown in display
- > **Finger-pressure tensioning control** – better for strapping sensitive products

Other features:

- > **Easy to use** – digital HMI interface touch pad controls
- > **Lightweight** – perfectly weight-balanced for reduced operator fatigue when held at any angle
- > **Industry-proven** – Swiss made tool for reliability, durability and lowest cost of ownership over tool lifetime
- > **Heavy duty** – shock resistant housing for longevity and maximum battery protection

Specifications

- > Strap requirements: PET or PP Strapping
- > Sealing method: Friction Weld
- > Applied tension force: 98-1200N
- > Strap thickness range: 0.5 to 1.2mm
- > Strap width range: 13-16mm
- > Dimensions: 368 x 140 x 135mm
- > Battery type: Bosch 18v 2.0A Li-ion
- > Charge time: 15 to 30 minutes
- > Cycles per charge: 400 to 800
