## TECHNICAL DATA SHEET

## **PS002 Multifold Shrink Film Sheeting**

Product description	Polyethylene shrink film folded to a compact roll width of 1mtr, unfolds to 4mtr total width  Ideal for shrink wrapping awkward-shaped products and machinery  Cut from roll to required length
Product data	
~ basic composition	General regranulated blend polyethylene with production additives and
	5% black masterbatch
~ colour	Black
~ folded width	1.0mtr (+/- 10mm)
~ open width	4.0mtr (+/- 10mm)
~ roll weight	17kg
~ film weight	232g per linear mtr
~ film thickness	62.5mu (+/- 10% average, +/- spot tolerance)
Technical data	
~ shrink ratios	Min. 35% transverse shrink
	Max. 20% machine/transverse differential
