

XCS550

SEMI-AUTO STRAPPING MACHINE

Featuring compact design, low-maintenance control head, electronic tension control, table height adjustment and lockable swivel castors make the XCS550 the perfect semi-auto strapping machine.

XCS550

SEMI-AUTO STRAPPING MACHINE

Features include:

- > Simple use and maintenance
- > Safety interlocked stainless steel top plate
- > Fully enclosed cabinet
- > Table height adjustment
- > Lockable swivel castors
- > Electronic strap tension adjustment
- > Reliable, energy-efficient operation

PP Suitable for use with polypropylene strapping

3 secs Strapping speed/ cycle rate

Heat weld seal - no need for metal seals

Suitable for carton strapping applications

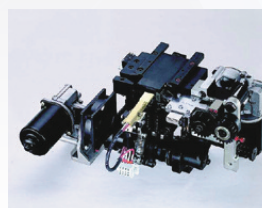

75Kg Total machine weight

15-45Kg Strapping tension range

240V 50Hz Power requirements

Adjustable leg/ table height

Suitable for engineering industry applications

The TRS600 employs a reliable mechanical sealing head

Simple to use control panel

Adjustable table height

Specifications

Machine Weight:	75 kg
Machine Dims w x d x h (mm):	850 x 560 x 780-950
Max Package Weight:	120 kg
Strap Widths (mm):	5-12
Min/Max PP Thickness:	0.5mm - 0.75mm
Min/Max Tension:	15-45 kg (Strap Dependent)
Speed/Cycle:	3 secs (@50Hz if applicable)
Power Requirement:	240v 50Hz
Power Consumption:	250w
